We are delivering a system called

ZLIGHT

to facilitate

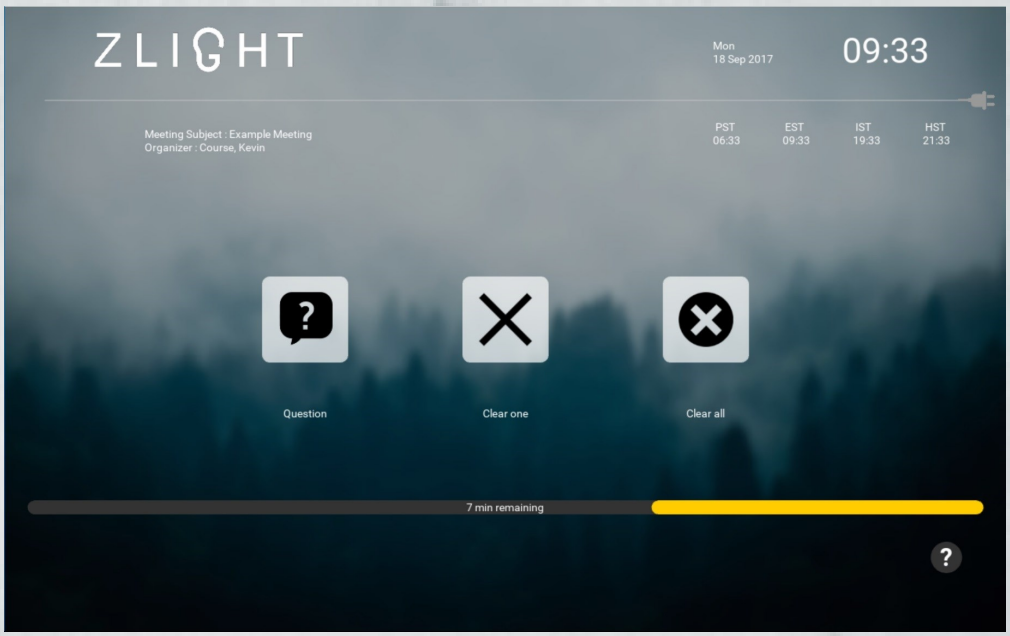
Effective Meetings…

…in distributed locations

…across multiple time zones

What is **ZLIGHT**?

IoT Signal Light



A big-Windows Client

(runs on any PC or Windows Tablet)

How does **ZLIGHT** help facilitate Effective Meetings?

- ☑ Queues up **questions** from remote participants
- ☑ Helps manage meeting **durations**
- ☑ Signals possibility of meeting **extension**
- ☑ Helps be **respectful** of other time zones
